

The Infohrm Group Announces Jeff Higgins as new Executive Vice President

Industry expert appointed to lead the company's Client Delivery Services function

Washington, DC, October 16, 2007 - The Infohrm Group, a global leader in on-demand, full service workforce reporting, analysis, planning and benchmarking solutions, today announced that Jeff Higgins has joined the team as Executive Vice President.

"We are delighted to have Jeff join the Infohrm organization," said Brian Kelly, President of Infohrm North America. "Jeff brings a unique blend of experience having had senior leadership roles in both the HR and Finance functions. Over the years, his work as a practitioner in human capital analytics, predictive modeling and workforce planning has been groundbreaking and this level of expertise will enable Infohrm to continue to develop our market leading capabilities, extend our role as the industry thought leader, and further refine the services that we offer to our community of members. I look forward to working with Jeff as we shape the future of human capital measurement."

Mr. Higgins joins The Infohrm Group from Countrywide Financial, where he most recently served as the Executive Vice President of Workforce Planning. Prior to that, he held HR executive roles at the Irvine Company and IndyMac Bancorp, as well as senior finance positions at Johnson & Johnson, Baxter International, and Colgate Palmolive. Mr. Higgins is a member of the Human Capital Institute's advisory board on Talent Leadership and Human Capital Analytics, a past member of the Saratoga Institute's Advisory Board, and has completed data-driven investigations into such topics as employee turnover, high-performer profiling, and the ROI of recruiting.

"I am very excited to be joining Infohrm," explains Mr. Higgins. "Having had the privilege to present at several of their human capital conferences, I am deeply aware of the technology, data and consulting expertise they bring to the measurement marketplace. They are the clear market leader with the best technology platform and broadest array of service offerings. I look forward to bringing a disciplined, rigorous analysis and modeling process along with extensive practical experience to the Infohrm community in the months and years to come."
